

Dear NJTL parent:

Your child is invited to participate in NJTL's second winter session. This session runs from January to March at four convenient Indianapolis locations. Please find class times and information below.

Intermediate players should be able to keep score, consistently serve legal overhand serves into the correct service box from the baseline, and easily rally back and forth with another player.

Advanced players should be proficient at all intermediate skills, have significant match play experience (most playing on school teams), and should be developing some power, spin, and strategy.
